Quick Start Guide

Read this instruction manual before operating

Wirelessly stream music from your iPhone, iPad, or other Bluetooth-enabled device to your Audi or Volkswagen car stereo. The CoolStream CarPro plugs into the 30 Pin iPod cable and integrates Bluetooth audio streaming into your car's stereo system. The CarPro is designed and serviced by CoolStream in New Hampshire.

Product Overview

This Box Contains

- CoolStream CarPro Bluetooth Receiver for Audi or Volkswagen iPod Cable
- Quick start guide

How to Install in Car

1. Locate 30 Pin iPod cable that comes with original or aftermarket iPod integration.
2. Plug the 30 Pin iPod cable into the connector of the CoolStream CarPro until it is locked in.
3. As soon as the head unit is switched on the CoolStream CarPro will power on. The LED will flash blue to indicate that it is in pairing mode.

How to Pair for the First Time

1. Go to "Settings" on your iPhone/iPod/iPad or other mobile device.
2. Select Bluetooth. Confirm the Bluetooth function is on and search/scan for available devices.
3. Tap CarPro to pair. Enter four zeros, "0000", as the PIN. Tap Pair to complete the connection.
4. The LED should be a steady blue light once the CoolStream CarPro is paired to the mobile device.
5. Play music. Confirm that the volume on your mobile device is at **MAXIMUM**.

How to Re-Connect

1. The CoolStream CarPro can be left on the 30 Pin iPod Cable all the time.
2. Once you turn off the car, the CoolStream CarPro will turn off and the Bluetooth connection with your mobile device will be broken.
3. After turning on the car again, the CoolStream CarPro will automatically power on and re-connect to the last mobile device paired to it. The LED will be a steady blue light once that CoolStream CarPro is re-connected.
4. If the CoolStream CarPro does NOT connect to your mobile device, go to Settings -> Bluetooth and tap **CarPro** to pair.

How to Pair a Different Mobile Device

1. In order to pair a different mobile device to the CoolStream CarPro, the Bluetooth function of the first phone paired to the CarPro must be turned off.
2. The LED will be a blinking blue light.
3. Now a different mobile device can pair to the CoolStream CarPro using the instructions above.

Safety Notice. PLEASE READ BEFORE USE.

We strongly advise that full attention is to be paid to the traffic conditions whenever the vehicle is moving. Distracted drivers can lead to road accidents both large and small.

Disclaimer

CoolStream cannot guarantee that Android 4.1 operating system or earlier will be supported by the car's media display and remote controls when using the CoolStream CarPro.

Please consult our website, www.coolstreamrocks.com, for information about firmware updates related to new versions of IOS. CoolStream will do everything possible to maintain compatibility with IOS versions higher than IOS 8.3.
